

# Don't break the habit. Annihilate it.

Get free help from the Oklahoma Tobacco Helpline.

You can tag a 12-point buck before sunup and take down a raging boar with one shot. But there's one force of nature you shouldn't tangle with. It's called cancer.

**Face cancer, jaw cancer, and a whole bunch of nasty tumors with big names you don't want to jack with.**

So spit out the dip, stomp out the cancer stick, and call the Oklahoma Tobacco Helpline. Because no matter how big an old boy you are, **there are some things you just don't mess with.** Charging grizzlies and face cancer, mainly.
